

Tanuja Maddi

SOC Analyst

Summary

SOC Analyst with hands-on experience in SIEM monitoring, alert triage, and threat detection using Splunk and SentinelOne. Investigated 100+ daily alerts, reducing false positives by 30% through IOC correlation. Skilled in MITRE ATT&CK mapping, phishing analysis, and endpoint security. Experienced in Incident Response, alert triage, and real-time SOC operations.

Education

- **Bachelor of Computer Applications**

Osmania University 2023-2026

Experience

SOC Analyst Intern

- Monitored and triaged 100-300 daily alerts in Splunk/Elastic SIEM, escalating critical incidents.
- Investigated phishing, malware, and brute-force attacks, reducing incident resolution time by 15% through rapid triage and analysis.
- Authored detection rules aligned with MITRE ATT&CK, improving coverage of lateral movement techniques.
- Correlated SIEM, EDR, and network logs to identify multi-stage attack patterns.

Projects

Network Traffic Analysis (Splunk)

- Built anomaly-detection dashboards in Splunk, reducing false positives by 20%.
- Automated alerts for suspicious IPs/ports, improving response speed to potential threats.

Phishing Email Detection (Python)

- Developed NLP-based phishing detection model achieving 85% classification accuracy on real-world datasets.
- Integrated with SIEM for automated triage, cutting manual review time by 30%.

Threat Intelligence Integration (MISP + Splunk)

- Correlated 200+ IOCs weekly from MISP into Splunk, enhancing detection coverage across threats.
- Reduced triage workload by 25% through automated feed ingestion.

Skills

- SIEM: Splunk, QRadar
- EDR: SentinelOne, Wazuh
- Network Security: Zeek, Suricata
- Threat Intel: OTX, VirusTotal, MISP
- Cloud: AWS CloudTrail
- Incident Response, Alert Triage, Threat Detection
- Python, SQL, Bash
- Windows, Linux administration
- Documentation & Reporting: Incident workflows, labeled screenshots, examiner-ready proof artifacts.
